Who We Are

Women In Defense (WID) strengthens the defense industrial base and workforce by promoting programming that creates, expands and enhances opportunities for women, increasing diversity within the national security community. WID's twofold mission focuses on empowering women currently working in defense and on encouraging talented young women to pursue careers in national security. Membership is open to women and men whose primary professional activities relate to the national security of the United States and its partners and allies. WID's 20 Chapters include members from defense companies; all branches of the U.S. Armed Forces; government; academia; think tanks; associations; and professional services. Active duty military and government employees receive complimentary membership.
